LIBRARY REPORT

Volumes in Library Jan. 31, 1942	3,674
Books purchased	162
Volumes in Library Jan. 31, 1943	3,836

Since the beginning of this war it has become increasingly hard to get prompt service on our book orders. Prices have gone up on certain types, especially non-fiction.

The State Library, Bookmobile and the Public Library Commission have helped us very much in obtaining "hard to get" books, but due to the fact that they supply many small libraries, it sometimes takes a week or two longer than it did a while ago.

Circulation of books and magazines has been about the same, but since gasoline and tire rationing, a slight decline in adult reading is beginning to show.

The circulation of books and magazines as compared to the previous year is:

	1941	1942
Adult fiction	2,203	2,182
Adult non-fiction	1,144	1,031
Children's books	943	1,213
Magazines	341	300

TOWN OF MOULTONBORO

FOREST FIRE WARDEN'S REPORT

As the tempo of America's war effort mounts, demands upon its citizens for service become more numerous and exacting. To some comes the call to arms; others to public service, others to defense industries and organizations. No one can possibly escape if he would. All must bear a proportionate share of the burden and the sacrifice. Strong first line fronts on land, sea and in the air are needed and can be developed and maintained only if there is unity of purpose and common determination behind the home front.

As men are drawn into service the burden of carrying on rests more heavily upon those forced to stay at home. Here, team work becomes increasingly important because of constantly diminishing manpower. A general breakdown in essential local activities and law observance can only be prevented by whole hearted cooperation between citizens and leaders.

There is no field of endeavor where cooperation and compliance with law and regulation are more needed than that of forest fire control. The most effective and economical effort in this field of activity is that of prevention. The old adage "an ounce of prevention" being "worth a pound of cure" was never more aptly applied than to forest fire control.

The forest fire warden is, by law, the designated local dealer in forest fire matters. He exercises his prerogatives and discharges his duties as such under the direction of the State Forester. There was never a time when the warden needed each citizen's good will and cooperation more than he does now. With manpower waning, fire prevention, through efficient preparation, care with fire and compliance with necessary regulations become a vital duty of citizenship.

For years efforts have been made to improve the usual bad spring and fall fire record. It was not until this year, however, that this problem was, to a great extent

TOWN OF MOULTONBORO

solved when permit burning was more rigidly restricted. Forest fire wardens were instructed not to issue permits except when it was raining and during the wet period immediately following rains. This plan worked out so well it has been decided to make it the established policy governing legal burning.

Everyone is well acquainted with the several civilian defense groups. Many of our fellow townsmen are serving in one or other of them. It is only recently, however that the Office of Civilian Defense, recognizing the threat forest fires are to our timber facilities and resources and the possible disruption of war activities in critical areas, established the "Forest Fire Fighters Service." Its purpose is to provide fire fighters, equipped and trained, to strengthen the hand of the local forest fire warden; to acquaint the people in the area with their responsibility in fire prevention and suppression and to provide an opportunity for people in and near forested areas to participate in the war effort. The State Forester is the State Coordinator; the District Fire Chiefs are District Coordinators and the Warden is the Local Coordinator. The Forest Fire Fighters Service personnel will be registered under the direction of the Office of Civilian Defense; it will be trained by the local warden and his assistants, aided by the District Chief. Individual citizens are urged to join this service group by applying to their local forest fire warden. By becoming a part of this organization locally, individuals can contribute their share toward the protection of our forest resources which are so vital to the war job.

During this critical period it is more than ever the part of good and prudent citizenship to remember

1. That permission to burn in or near woodland or where fire may be communicated to woodland must be secured from the forest fire warden when the ground is not covered with snow.

2. To be careful when smoking in or near the woods and not to throw lighted cigars, cigarettes or matches from moving vehicles.

TOWN OF MOULTONBORO

3. To notify your local warden promptly of any fires you see.
4. That fire prevention is the best and cheapest fire insurance.
5. To be fire-minded; be careful; be cooperative and thus help your warden prevent forest fires. This is patriotism at work.

The 1942 fire record for our town follows:

Number of fires 2
Acreage burned 2
Cost of suppression \$112.28
Number of permits issued 19

TOWN OF MOULTONBORO

REPORT OF SUPERINTENDENT OF SCHOOLS

School in War Time

More and more the impact of wartime conditions is making itself felt in the lives of our children. Although we may work earnestly to provide the normal conditions of work, play, and growth to which childhood is entitled, it is increasingly difficult to do so.

Your teachers and superintendent are called on to devote many hours to duties quite apart from the job you are paying them to do. The rationing of food and fuel oil, and the sale of war stamps and bonds, represent only a part of our duty to Uncle Sam and the boys in the service. In order to save gasoline and tires, it has been necessary to check over with care all the school bus routes in the nation. These routes have been combined in some cases, and frequently shortened, requiring children to walk part-way between home and school. Lack of transportation has also obliged us to curtail teachers' meetings for the duration.

Some benefits to children, however, may develop out of the war emergency. An increased emphasis on health and physical education is one important advantage. Many teachers have availed themselves of the First Aid courses conducted by the Red Cross. Much attention is being given to the matter of nutrition of growing children, and school lunches are provided in many schools throughout the country. Special efforts are being made to interest children in gardening under the "Food for Victory" program. Such things as these ought not to have to wait until a war comes; and they should be continued after the conflict is over.

Some appreciative mention should be made of the long and devoted service of the late Dr. Frank Lovering to the cause of education in our town. Few, if any,

TOWN OF MOULTONBORO

in New Hampshire have served as long as he on a local school board. Those, like myself, who knew him only for a few years, have a great respect for his character, his good judgment, and his sympathetic interest in childhood; and those who knew him longer must have a still deeper feeling of loss at his passing.

Respectfully submitted,

ALMON W. BUSHNELL

TOWN OF MOULTONBORO

REPORT OF SCHOOL NURSE

A report of the health work done in the Moultonboro schools the past year.

School visits, 58.

Pupils inspected, 87

Dr. Lovering did a physical examination on 87 children in the four Moultonboro schools and 24 children in the Center Harbor Village School.

Result of physical exams.:

Defective vision	10
(8 are wearing glasses)	
Defective teeth	24
Enlarged tonsils	8

A successful dental clinic was held last spring with Dr. Pottle and Dr. Deneault in Meredith. A summary of the clinic shows that 35 pupils were treated with a total number of 170 operations. A similar clinic is being planned for this spring.

I wish to express my sincere sympathy in the death of our school physician, Dr. Frank Lovering. We will miss his kind and understanding way with the school children. He had known and been interested in the majority of them from their birth. In his passing they have lost a true and interested friend.

The cooperation of the Superintendent, Members of the School Board, Teachers, Parents, and the Red Cross Chapter has been very much appreciated.

Respectfully submitted,

EVA A. HENEY, R. N.
